

Lab 8

The screenshot shows the phpMyAdmin interface for the 'blog_site' database. The left sidebar displays a tree view of the database structure, including 'blog_site', 'posts', 'users', 'information_schema', 'mysql', 'performance_schema', 'phpmyadmin', and 'test'. The main panel shows the 'Structure' tab for the 'blog_site' database. A table list shows two tables: 'posts' and 'users'. The 'posts' table has 2 rows, InnoDB engine, utf8mb4_general_ci collation, and a size of 16.0 KiB. The 'users' table has 2 rows, InnoDB engine, utf8mb4_general_ci collation, and a size of 16.0 KiB. Below the table list, there is a 'Create new table' section with fields for 'Table name' and 'Number of columns' (set to 4), and a 'Create' button.

Table	Action	Rows	Type	Collation	Size	Overhead
☐ posts		2	InnoDB	utf8mb4_general_ci	16.0 KiB	-
☐ users		2	InnoDB	utf8mb4_general_ci	16.0 KiB	-
2 tables	Sum	4	InnoDB	utf8mb4_general_ci	32.0 KiB	0 B

The screenshot shows the phpMyAdmin interface for the 'blog_site' database, specifically the 'posts' table. The left sidebar shows the database structure. The main panel shows the 'SQL' tab for the 'posts' table. A text area contains the following SQL query:

```
1 CREATE TABLE posts (  
2   post_id INT AUTO_INCREMENT PRIMARY KEY,  
3   user_id INT,  
4   title VARCHAR(100),  
5   content TEXT  
6 );
```

Below the text area, there are buttons for 'SELECT *', 'SELECT', 'INSERT', 'UPDATE', 'DELETE', 'Clear', 'Format', and 'Get auto-saved query'. There is also a 'Bind parameters' checkbox and a 'Bookmark this SQL query' field. At the bottom, there is a 'Delimiter' field set to semicolon, and checkboxes for 'Show this query here again', 'Retain query box', 'Rollback when finished', and 'Enable foreign key checks' (checked). A 'Go' button is at the bottom right.

phpMyAdmin
